

OUT *and* ABOUT

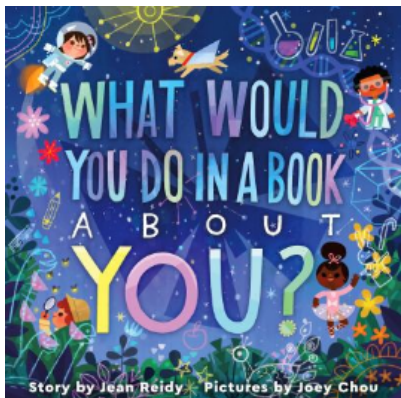

RED DEER PUBLIC LIBRARY'S SUMMER READING CLUB

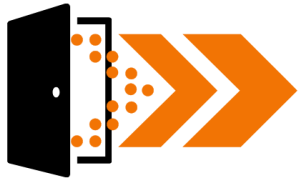

Week Two: Make a Story!

- Creative writing prompts
- Musical instrument matching
- Finish the drawing
- Q-tip painting
- Craft corner: rain stick & bullet journal

In what ways
will you show
creativity?

Head over to
rdpl.org/kidssrc for
more fun activities
and book
recommendations!

OUT *and* ABOUT

SUMMER READING CLUB 2021

Choose one (or more!) of the creative writing prompts below to get your story started!

If your pet could talk, what would they say?

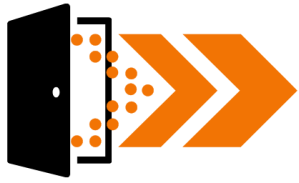

If you had an invisible helper, what would they do for you?

What is the best way to make someone feel loved?

Write a different ending for your favourite movie.

OUT *and* ABOUT

SUMMER READING CLUB 2021

Match each musical instrument with its name.

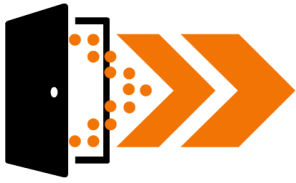

Violin
Triangle

Trumpet
Drums

Xylophone
Maracas

Recorder
Guitar

Piano

SUMMER READING CLUB 2021

CRAFT CORNER!

See the instructions below to make your own rain maker at home.

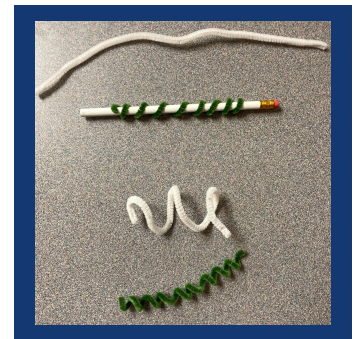

Supplies you'll need:

- Cardboard tube
- Pipe cleaners
- Scissors
- Tape
- Rice, beans, or popcorn kernels
- Stickers
- String
- Paper bag or construction paper
- Decorating Supplies (crayons, markers, paint, glitter, etc)

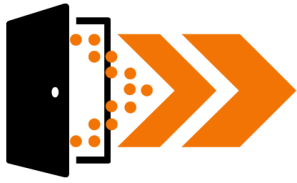

Instructions:

1) Twirl each of your pipe cleaners around an object (your finger, a pencil, a glue stick, etc) to give them a spiral shape. Try to find different objects to make each swirl a different size!

Don't have all of the supplies?

Pick up the Kit to Go from any branch or the Book Bike (while supplies last) to make this craft easier!

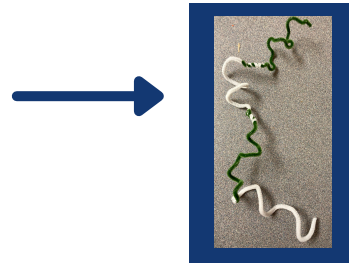

CRAFT CORNER!

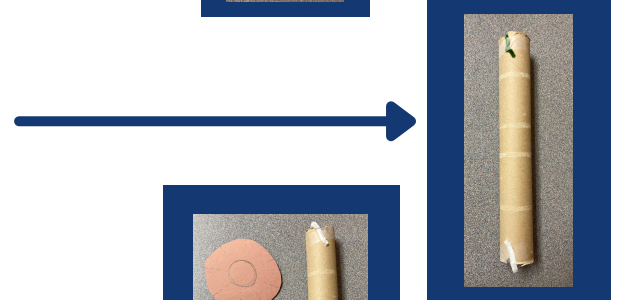

Rain maker constructions continued:

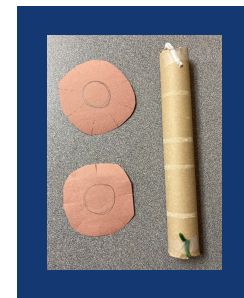

2) Attach the ends of each pipe cleaner by twisting their edges to make one long band.

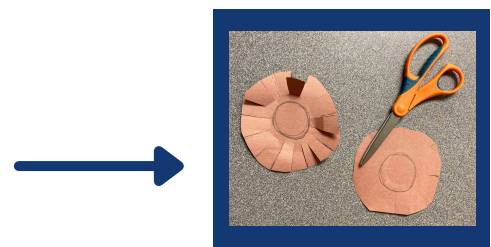

3) Grab your cardboard tube and feed one end of the pipe cleaner “string” through the tube. Secure both ends of the pipe cleaners on the outside of the tube with tape.

4) Find your paper bag or construction paper, and cut out two big circles. The circles should be big enough to cover the bottom of the tube and a bit of the sides.

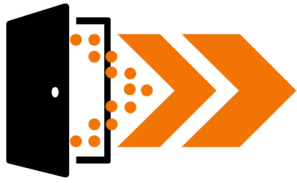

5) Cut little slits around the edges of the paper circles so that they can wrap around the sides of the tube. Be careful not to cut too far!

6) Flip the slits up around the side of the tube and secure them with tape. The bottom of the tube should now be completely covered.

SUMMER READING CLUB 2021

CRAFT CORNER!

Rain maker constructions continued:

7) Pour your “rain” (rice, beans, corn or whatever you found around the house!) into the open end of the tube. You can experiment with different amounts, we used about a handful of beads!

8) After you’ve found the right amount of “rain”, repeat Step 6 with the other paper circle on the open end of the tube. Both ends should now be completely secured!

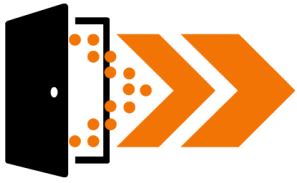

9) Now it's time to decorate your rainstick! You can draw or paint right on the tube, or grab a piece of paper and wrap it around!

10) Tie the string around the ends of the tube, add stickers and the rest of your finishing touches!

11) Now you’re all set to make some rain!

SUMMER READING CLUB 2021

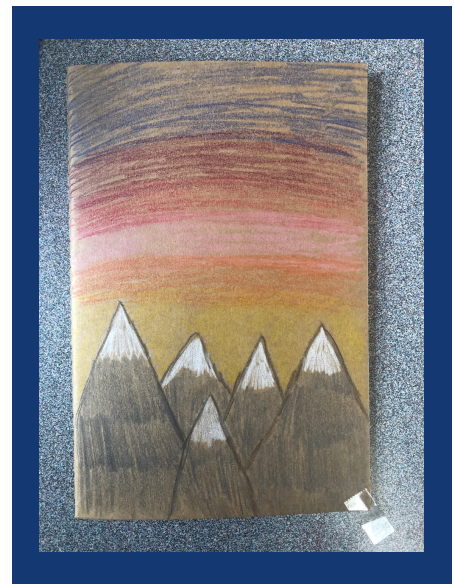

CRAFT CORNER!

See the instructions below to make your own bullet journal at home.

Supplies you'll need:

- Blank journal or notebook
- Piece of white paper
- Markers
- Pens or Pencils
- Decorating supplies (stickers, glitter, etc)

Instructions:

1. Grab your blank journal.
2. Glue or tape the white paper to the outside of the journal.
3. Decorate the cover of your journal however you would like.
4. You now have your own personalized bullet journal that you can use however you would like! You could use it to write, draw, and more!

Don't have all of the supplies?

Pick up the Kit to Go from any branch or the Book Bike (while supplies last) to make this craft easier!
