## CRAFT CORNER!

See the instructions below to make your own toilet paper roll binoculars at home.

### Supplies You'll Need:

- 2 toilet paper rolls
- String
- Glue or a stapler
- Hole punch
- Decorating supplies (markers, paint, stickers, etc)

### Instructions:

1. Grab your toilet paper rolls. Hole punch one hole into the top of each tube.
2. Glue the rolls together, with the holes facing outward to either side. Instead of gluing them, you can put two staples in the top and bottom of the tubes.
3. Tie each end of your long lanyard string into each hole that you just made.
4. Decorate however you'd like! Wrap yarn around the binoculars, add stickers, paint or draw on them!
5. Go outside and explore the wilderness with your brand new binoculars!!

Don't have all of the supplies?

Pick up the Kit to Go from any branch or the Book Bike (while supplies last) to make this craft easier!

## CRAFT CORNER!

See the instructions below to make your own glass lantern at home.

### Supplies you'll need:

- Glass Jar
- Coloured Tissue Paper
- White Glue
- Tea light
- Optional: twine, wire, or string

### Instructions:

- 1) Add water to your mod podge to fill the container. Mix the solution until you have a glue like consistency.
- 2) Rip your tissue paper into strips. You can play with the thickness and unevenness of the pieces to make them look different.

## CRAFT CORNER!

Glass lantern instructions continued:

3) Beginning at the bottom of the jar, layer your tissue paper from light to dark.

4) Make sure to spread your mod podge mixture on the paper where you layer it.

5) Continue adding paper to the jar until the outside is covered.

6) If some pieces of paper seem loose, put a thin coat of the mod podge mixture over the entire jar.

7) Allow the jar to dry completely.

8) Optional: find something to hang your lantern with! Be sure to find a material this is not flammable, such as wire.

8) Insert your tea light, light it, and watch your beautiful glass lantern come to life!
