

Piano Hinge Journal

Supplies Needed:

- Paper
- Bamboo Sticks
- Stickers
- Paper Jig
- Scissors
- Pencil
- Glue
- File or Sandpaper

1

Using no more than three pages, fold the paper in half making small booklets. Using a paper jig, trace out the pattern using a pencil on each fold. Cut out the triangles.

2

Weave in a bamboo stick, skipping every second tab.

3

Once your booklet appears like this, you can start adding more booklets.

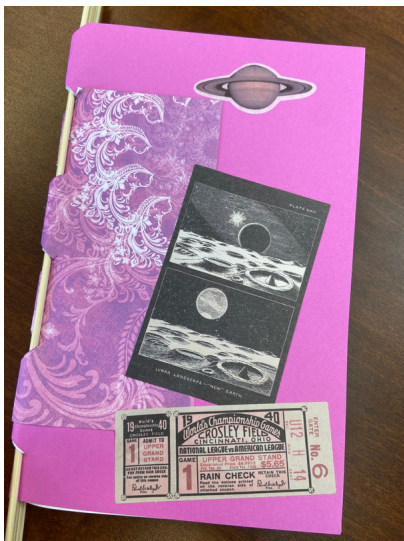

4

When adding a new booklet, weave into the tabs that you skipped in step 2, once again skipping every second tab on booklet you are adding.

5

Once you've added your desired number of booklets, cut off the excess length from your bamboo sticks, and file down where necessary.

6

Decorate your journal as desired.

Voila!
